

Adult Volunteers for Conservation & Restoration Needed for Native Plant Seed Cleaning to Benefit Kishwauketoe Nature Conservancy

Native plant seed collection is winding down for 2026 at Kishwauketoe Nature Conservancy (KNC) in Williams Bay, and we now have a large supply of harvested seeds to clean and prepare for winter and early spring sowing.

We'll be volunteering in the cozy confines of the Village of Williams Bay's Lions Recreation Center, the Lions Field House; no warm outerwear is required! Seed cleaning is a great way to volunteer to benefit our beautiful KNC without the need to walk long distances or perform strenuous tasks – this is a sit-down volunteer work effort; and, you'll meet some great people who share the same love of Kishwauketoe! Bring your water bottle.

No experience or equipment required, training provided. Please join us from 10:00 am to 12:00 noon on the following dates and times:

Wednesday, Oct. 7

Wednesday, Oct. 14

Wednesday, Oct. 28

Wednesday, Nov. 4

Wednesday, Nov. 11

Wednesday, Nov. 18

Wednesday, Dec. 2

Wednesday, Dec. 9

We have plenty of sit-down casual work to do, and we need your help! The collected seeds are in bags waiting for your assistance. Your cleaned seeds will be used to reseed and restore areas in KNC recently cleared of invasive species, like buckthorn and honeysuckle.
